Farmington, MN 55024

About NEMO & This Workshop:

NEMO—*Nonpoint Education for Municipal Officials*—is an education and training program that builds the knowledge and skills of local decision makers, elected & appointed officials, and community leaders in the area of water and natural resource management. NEMO Programs provide resources that lead to more informed land use decisions for the community.

This unique workshop is a collaborative effort offering experts and resources from:

- **University of Minnesota Extension - NEMO Program**
- **Minnehaha Creek Watershed District**
- **Nine Mile Creek Watershed District**
- **Science Museum of Minnesota**
- **The National Center for Earth-surface Dynamics**
- **The Saint Paul Riverfront Corporation**
- **Minnesota Department of Natural Resources**

MINNEHAHA CREEK
WATERSHED DISTRICT

Financial support for this program is provided through the McKnight Foundation.

What to Expect:

You will participate in an interactive, hands-on, informative workshop. Resource specialists will lead you through a 3-D water resources mapping exercise, a presentation about green infrastructure in redevelopment, and an interactive activity to select best management practices to fit your community's revitalization goals.

While you participate, your family members explore the Science Museum. Children must be accompanied by an adult during this time. You can join them at 12:00pm to continue your exploration and attend an Omni film.
